

Your Honor:

About a month ago
We received this telephone
call from a Counselor -
Lawyer ?? ranting and
raving - That I had
sent a letter to you.

I couldn't get a word
in edgewise so I
finally hung up on him.

One of the things he
said was because I sent
the letter to you was that
now we would get
nothing.

I have thought it over
and figured that you might
like to know this.

I think it was Kurtzman
Parson Consultants, but as I
said before I couldn't get
a word in - to whom - I
could find out who was
talking to me.

It brought back old memories of the way we were treated after I had the stroke working for Saginaw Steering Gear - Division of General Motors.

I never worked for Delphi.

This was when I couldn't write my name legible and had to be helped. My Wife had to quit her job to help me. We still had 5 children going to school and couldn't resist anything General Motors and Saginaw Steering Gear Division decided to do, because of the condition I was in.

I heard through the grape vine that during this time that General Motors wanted me back to work but Metropolitan Insurance that had a \$280,000 policy

on me They wouldn't go along with it. After all my wife had been told at the Medical Center in Ann Arbor, M.I. That I would only live about 18 months

When I worked at Saginaw Steering Gear it was the most profitable Division of General Motors.

I worked in Experimental Engineering and at different times as Technician Supervisor of the different types of Skilled Tradesmen

I know that I was one of their key men, but when I couldn't come back to work it appeared they turned against me.

When I think of all that I did for them it gets me very upset. The overtime I gave them and didn't get paid, the

designs and innovations.

Then Randy Robertson told me and my wife we would have Full Coverage Blue Cross & Blue Shield Health Insurance for the rest of our lives. Which they cut.

Every time we saw them they had different figures and wanted me to sign off my wife's vested pension rights which I wouldn't do.

They retired me in 1983 ✓

As I wrote before They put us through Hell! We had to cut back on everything — None of the most modern conveniences no cable — no computer — no cable phones (which came a couple of years ago)

We don't have a lot of things the low common people have.

But I know General Motors
and Haginax Steering Gear
(Renamed) Delphi owe us a
lot.

I've called Delphi
numerous times in order to
where we stood. But we
can't get any answers.

We can't afford a
lawyer. Some of them
want a \$1000. just for a
consulting fee.

In 2003 they sent
me a letter that with
them being in bankruptcy
we didn't have to do any-
thing. Then they start
sending me things that
didn't apply to us and
things that did.

So we are sending
you these things because
we can't trust them.

To us it makes
no difference if General
Motors gave Delphi their

stock back to them for
nothing. We have not done
that!

exhibits

- 1 on notices
- 2 on date and hearing
- 3 on voting
- 4 on rights
- 5 on our shares
- 6 on my stock

Again I must say
forgive me for bothering
you. You are the only
one we can put any
trust in

Thank You

Alvin C. Schmidt
